

M&A ♦ Strategic Partnerships ♦ Competitive Strategy ♦ Product & Technology ♦ Regulatory Strategy

Multi-sector operator, founder, and deal-maker who has built technology companies, advised CEOs and boards, and worked \$200B in M&A transactions across the full deal lifecycle. A physicist, attorney, management consultant, and technology executive particularly effective where regulatory complexity, competitive dynamics, and emerging technology shape the strategic calculus.

LEADERSHIP ROLES

R Street Institute – Director & Chairman of the Board 2024 – present
Fiduciary oversight and leadership advisory for a \$15M think tank designing data-backed policy solutions that advance limited government and free markets. Worked with White House to limit fragmentation in AI regulation.

Kindretic AI – Founder & CEO 2025 – present
Building the foundational data layer for personal contacts and connections – with a protocol for user-controlled information on people and relationships that powers a permission-based ecosystem of AI applications.

DataJoint – Co-Founder & President (Head of Product, Marketing) 2022 – 2025

- Built and launched an NIH-funded system of record for scientific data and computation, translating software from the “moonshot” iARPA MiCRONS project into an enterprise platform with ARR >\$500K.
- Co-developed and launched with Harvard a new tech transfer model for AI software and data.
- Closed \$4.9M seed round and recruited a new CEO to lead growth and commercialization into pharma.

Stratagility Consulting – Founder & President 2008 – 2022

- **Permira** – Conducted commercial diligence on a \$1B+ technology-enabled services business, including customer interviews and competitive analysis supporting successful acquisition of majority ownership.
- **1517 Fund** – Advisor to a leading early-stage VC and mentor to portfolio company founders; prepared a report, *1517 Fund I: The Growth Companies*, by interviewing and profiling 15 founders and their startups.
- **Spring Valley Capital** – Investigated post-merger integration failures at a portfolio company; discovered and documented material technical and commercial issues, and advised the Board on corrective actions.
- **Siemens PetNet** – Designed a real-time logistics system for distributing radiopharmaceuticals with half-life measured in minutes; coordinated manufacturing, routing, and delivery under extreme constraints.
- **Luminar** – Advised CEO on public affairs, partner development for autonomous vehicle LiDAR sensors.
- **Hitachi Vantara** – Built the board narrative and coached the CEO on aligning parent company leadership on a shift from capex to a recurring revenue business model.

OPERATING ROLES

Darcy Partners – CTO 2019 – 2020
Pivoted an energy technology research business from live events to a digital SaaS platform; launched pilot in <90 days, scaled to \$8M ARR serving 10,000+ energy executives through the pandemic.

Landover Wireless – EVP Strategic Partnerships 2016 – 2018
Led analysis, pricing, and planning for a \$3B rollup of TV spectrum to create a new private 5G network covering 85% of US population; initiated partnership discussions with Google, Amazon, Facebook, and Microsoft.

Sovolve / Wonder – Head of Product & Engineering 2014 – 2016
Built a viral platform that mapped personal networks from mobile Contacts data, inventing new data structures and social graph technology to identify and engage non-users; achieved 80% invite rates and 20% conversion.

Smart Tech Foundation – Co-Founder & Interim CEO 2013
Co-founded with Ron Conway. Working with X-Prize, incentivized new solutions to reduce gun violence.

Fandor – COO

2010 – 2012

Built Netflix's first streaming movie competitor – an “at-home film festival” with “flawless service” (Roger Ebert).

PROFESSIONAL SERVICES**CPA Global – Vice President, Legal Solutions**

2009 – 2010

Prevented disruption of Analog Devices' supply of chips for Apple's iPhone by defeating a competitor's bid for an import-blocking ITC order – on a timeline their law firm had said would be “impossible.”

MetaJure – Director of Consulting Services

2008 – 2009

Led engagement for Intellectual Ventures to protect its \$5B, 30,000-patent portfolio against risks of non-enforceability; ran C-level steering committee and 15-consultant portfolio review team.

McKinsey & Company – Management Consultant

2007 – 2008

- Led operations synergies analysis and channel integration strategy for the \$13B XM/Sirius merger, working directly with CFOs and programming strategy teams at both companies.
- Led legal and compliance integration for Schering-Plough's \$14B acquisition of Organon; developed and drove adoption of a new approach that cut severance waiting periods in half and saved millions.
- Saved client \$300M by developing a novel valuation analysis of an acquisition target's media portfolio.

Jones Day – Associate

2002 – 2007

- Coordinated economic analysis, led teams of 60+ attorneys, and assisted in negotiating US/EU antitrust clearance for \$150B+ in M&A transactions such as P&G/Gillette, Sprint/Nextel, Ameren/CILCORP, and Chevron/Unocal. Embedded with P&G and Intuit corporate development teams to advise on deal strategy.
- Represented Dell and Apple in the DRAM price-fixing litigation; defended deposition of Dell's Chief Procurement Officer and negotiated settlements for overcharges on \$3B+ in annual purchases.
- Counsel of record in consumer protection and copyright matters before the US Supreme Court, lower courts, and FTC; argued *RJFCO v. CFTC* (commodities fraud/false advertising) before the 11th Circuit.

Gibson Dunn & Crutcher – Associate

1998 – 2002

- Coordinated econometric analysis and helped secure clearance for \$20B in M&A transactions including Nestlé/Ralston and Northrop/TRW; accelerated DOJ clearance by devising a novel sampling approach.
- Helped win Intel's landmark victory against FTC, leading analysis of Intel's acquisition of Digital's Alpha microprocessor; advised HP, Union Carbide, Virginia Power, and others on litigation and investigations.
- Second-chaired and won a DC Circuit case for CTIA that overturned FCC rules permitting warrantless interception of packet-based digital communications.
- Led negotiation and preparation of the joint factual record for the US Supreme Court in *Bush v. Gore*, helped prepare Ted Olson for oral argument, and contributed research, writing, and editing to the briefs.

SELECTED EARLIER ROLES**US Court of Appeals, DC Circuit – Law Clerk to Hon. David B. Sentelle**

1997 – 1998

The Green Bag Press – Co-Founder & Executive Editor

1997 – 2007

Published a top-5 law journal, Supreme Court bobbleheads, and 4 books; profiled on *All Things Considered*.

Lockheed (Skunk Works) – Scientist

1988 – 1990

Developed massively parallel CM-2 software for radar backscattering and ML optimization analysis; presented at IEEE; made New York Times front page for solving largest-ever computational problem. TS/SCI-SAP clearance.

EDUCATION

University of Chicago Law School – JD with High Honors; Olin Prize for Law & Economics; DC Bar (active)

Harvey Mudd College – BS Physics with Distinction
