

MONTGOMERY KOSMA

3617 Albans Rd., Houston, TX 77005 • 202-294-3411 • mkosma@gmail.com

My success as a CTO and product strategist traces to Richard Feynman, who taught me as a young physicist to embrace curiosity and uncertainty. As a result, I've built and led agile teams attacking markets and problems without obvious answers, taking ten software platforms from paper napkin to launch.

PROFESSIONAL EXPERIENCE

STRATEGALITY – Houston, TX & San Francisco, CA

July 2010 – Present

FOUNDER & PRESIDENT

Consultant on transformational products, markets, and ecosystems. Representative engagements:

- DataJoint (designing technology strategy & product roadmap for NIH-funded neuroscience SaaS platform)
- Feynman Mafia (developing Socratic-method learning platform for math, physics, quantum computing)
- Safe-In-Home (advising CEO of a health-tech company providing “remote presence” care for disabled adults)
- Spring Valley Capital (assessed product, IP, and executive team of a network optimization software company)
- Permira (evaluated potential for technology-based transformation in a traditional services market)
- Hitachi Vantara (educated Board of Directors on new cloud- and subscription-based business models)
- Luminar (designed a public affairs & regulatory strategy to promote LiDAR sensors for self-driving vehicles)
- Siemens PETNET (developed requirements & system design for distribution of radioactive pharmaceuticals)

DARCY PARTNERS – Houston, TX

December 2019 – December 2020

CHIEF TECHNOLOGY OFFICER (CTO)

Led SaaS platform design, engineering, and launch that pivoted an energy industry advisory firm from in-person to virtual events, serving a community of over 10,000 executives and engineers from over 100 subscribing companies.

LANDOVER WIRELESS – San Francisco, CA & New York, NY

October 2016 – December 2018

EXECUTIVE VICE PRESIDENT, GLOBAL STRATEGIC PARTNERSHIPS (EVP)

Developed relationships to supply dedicated 5G connectivity for AR & VR (Facebook, MagicLeap), autonomous vehicles & IoT (Ford, Microsoft), and other advanced devices (Google, Amazon), and to acquire national spectrum.

SOVOLVE – San Francisco, CA

June 2014 – August 2016

HEAD OF PRODUCT & ENGINEERING

Built agile product & engineering teams for Wonder, a personal reputation system in the form of a Q&A game. Pivoted from Facebook to address-book social graph, inventing new math, data structures, and concepts like “shadow graph.” Shipped an Ember.js app on Android/iOS with a viral loop where 80% of users invited friends and 20% converted.

SMART TECH FOUNDATION – San Francisco, CA

April 2013 – October 2013

FOUNDER & INTERIM CEO

Created an ecosystem for harm-reducing technologies; partnered with X-Prize to develop competitions in areas such as secure personalized firearms, community safety, and brain health; featured on 60 Minutes.

FANDOR – San Francisco, CA

August 2010 – October 2012

CHIEF OPERATING OFFICER (COO)

Built and launched Netflix's first subscription movie streaming competitor. Secured company's lead investor. Led cloud infrastructure (encoding, streaming); partner operations (licensing, reporting); marketing; business (finance, HR, legal); and cross-company initiatives (mobile apps, Facebook Connect). Delivered 10X user growth in 5 months.

CPA GLOBAL – Alexandria, VA

August 2009 – July 2010

VICE PRESIDENT, LEGAL SOLUTIONS (VP)

Developed new business model and \$20M pipeline for outsourced legal services. Devised a solution that enabled a customer to solve an “impossible” IP problem that would have interrupted supply of critical iPhone components. Transformed a combative, fragmented sales organization into a cohesive team focused on helping clients succeed.

METAJURE – Seattle, WA

July 2008 – August 2009

DIRECTOR OF CONSULTING SERVICES

Led a compliance project for Intellectual Ventures (including C-level steering committee, 15-consultant team, and company-wide training & culture change) that protected patents in IV's portfolio from being deemed unenforceable.

MCKINSEY & COMPANY – Washington, DC

April 2007 – July 2008

MANAGEMENT CONSULTANT

Led teams of consultants and client staff in media and operations projects. Analyzed content & operations synergies for an \$18B broadcast merger. Developed a new method for valuing TV characters that protected a P/E fund against a \$300M mistake. Designed an interactive whiteboard for a Lean operations project that cut a lender's underwriting time from 45 to 20 days. Established a PMO to manage change initiatives for US intelligence community operations.

JONES DAY – Washington, DC

August 2002 – April 2007

ASSOCIATE

Advised technology clients (such as Apple, Clear Channel, Dell, IBM, Intuit) in antitrust litigation, M&A, and investigations. Led 80 attorneys and managed \$60M annual spend on outside services. Led global antitrust compliance for P&G's acquisitions of Gillette and Wella. Secured three clients and served as counsel of record in consumer protection & copyright cases before the US Supreme Court, US District Court, and FTC. Expert in helping judges and regulators understand complex technologies and their markets.

GIBSON DUNN & CRUTCHER – Washington, DC

June 1998 – July 2002

ASSOCIATE

As second chair to Ted Olson, won a famous case prohibiting warrantless surveillance of internet communications; prepared and filed the factual record with the Supreme Court in *Bush v. Gore*. Lead counsel for a commodities brokerage, arguing a fraud and false advertising case in the US Court of Appeals. Key member of the team that helped Intel defeat FTC's monopolization charges.

Additional Experience:

Chief Technology Officer (CTO) – Delphi Systems ♦ Design Team Leader – Triple-I
Systems Engineer – PDA ♦ Scientist – Lockheed Aeronautical Systems ("Skunk Works")

EDUCATION*UNIVERSITY OF CHICAGO – Juris Doctor (JD)**Graduated with High Honors – Rank: Top 10**HARVEY MUDD COLLEGE – Bachelor of Science (BS) in Physics**Graduated with Distinction – Rank: Top 2 in Physics*
